### ABOUT CC

What if the future divided America you fear is closer than you think? CC Robinson brings it into existence, then offers hope for a way through. A medical doctor and pastor who has lived and worked across racial divides – from post-civil war nations to a multi-ethnic Cincinnati congregation – Robinson brings rare authenticity to young adult dystopian fiction. Her award-winning *Divided series* portrays a racially-fractured America and a rebel movement of noble heroes working to right the wrong. When she's not rescuing her characters from dystopian chaos, she's hiking, dancing, or off-roading through the woods with her husband and three Gen Z kids.
